Wheel Dumpers

Three different types of skip mean even greater utility

Even greater utility for building processes, logistics and environmental technology: The standard front-tipping skip is ideal for fast material turnover. The high-tipping skip bridges differences in height. The swivel-tipping skip with its 180-degree tilt dumps the material precisely where it is needed.

- Three different types of skip: Front-tipping skip (standard); high-tipping skip and optional swivel tipping skip, maximum payload 1,500 kg.
- Hydrostatic twin-lock rear-wheel drive.
- Continuously variable speed up to 16 km/h max.
- Large service and maintenance access.
- Clearly laid out instrument panel and wide, robust leg protection.

1601 Technical specifications

	Front tip skip	Swivel tip skip	High tip skip
Operating data			
Payload kg	1,500	1,500	1,500
Shipping weight kg	1,261	1,261	1,261
Skip capacity level I	829	650	650
Skip capacity heaped I	1,044	800	800
Skip capacity water level I	612	325	420
